(H. 2008; reaffirmed H. 2019)

165.002 Health Care Reform Principles

OSMA believes that any health care reform legislation should ensure continued improvement in patient access to care and patient health insurance coverage by maintaining:

- 1) Guaranteed insurability, including those with pre-existing conditions, without medical underwriting, or use of lifetime benefits as a reason for exclusion of patient medical services,
- 2) Income-dependent tax credits to subsidize private health insurance for eligible patients,
- 3) Federal funding for the expansion of Medicaid to 138% of the federal poverty level in states willing to accept expansion,
- 4) Maintaining dependents on family insurance plans until the age of 26,
- 5) Coverage for preventive health services,
- 6) Medical loss ratios set at no less than 85% to protect patients from excessive insurance costs. (H. 2017)

OSMA believes that any health care reform legislation should meet these goals:

- 1) Allow patients a broad choice of physicians, plans and coverage through Health Savings Accounts, private insurers, government programs, and Medicare private contracting, enhance programs to ensure insurance portability,
- 2) Stabilize and strengthen individual insurance market,
- 3) Provide access to affordable prescription drugs,
- 4) Ensure that Medicaid, CHIP and other safety net programs are maintained and adequately funded,
- 5) Reduce regulatory burdens that detract from patient care and increase cost,
- 6) Provide greater transparency throughout the healthcare system,
- 7) Incorporate common sense liability reforms,

- 8) Continue the advancement of delivery reforms in new physician-led payment models to achieve better outcomes, higher quality and lower spending trends, such as Comprehensive Primary Care Initiative,
- 9) Repeal of the independent payment advisory board. (H. 2017)
